

World's Last Chance Unveils Newly Redesigned Website Linking Christians Around the Globe

World's Last Chance, the world's most distinctive nondenominational online ministry, today introduces its revolutionary updated website. The redesigned site now provides Christians world-wide with even more extensive information and resources regarding the second coming of Christ.

Membership to the WLC global community is free and the first 25,000 visitors who **register and confirm their address** will receive an exclusive free gift with a retail value of \$40. The WLC ministry is spending over \$1 million to provide this gift set as well as free shipping and handling to new members around the world.

In addition to multiple membership benefits, the new WLC site offers members the chance to win free merchandize. Futhermore, site members can utilize resources and tools found on the new website including access to the World's Last Chance online library (which contains downloadable ebooks in over 25 different languages), instant Bible answers to over 3000 questions, complete online interactive Bible study lessons, a database of natural remedies, articles focusing on Bible prophecy, and much more.

The new WLC global community is dedicated to all Christians who are eager for the near second coming of Christ. Registered members have the added bonus of being able to participate in the lively, global WLC community that connects users around the world to each other and the essential WLC message.

We believe the benefits of becoming a member of the WLC global community are enticing. In addition to all the tools that are readily available, members will be able to search and locate other members in their own city or country. This will facilitate the formation of home churches for members who wish to worship the Heavenly Father in truth and spirit.

There are also quizzes and surveys which help to highlight and address the many doctrinal errors besetting the Christian world today.

One of the most exciting features on the new WLC site is a points collecting system that rewards members for every activity in which they participate. Through this Rewards Program, all points are redeemable for merchandize at the WLC online store which contains a wide variety of books, DVD's, and CD's. The cost of shipping is also redeemable with points. You need no money for purchasing items in store, except through the points you earn. We believe that many will be able through this method to obtain precious books and CDs, which will may not have been possible otherwise.

We are launching this community at our own cost because we believe the second coming is only a few years away and we desire to help other like-minded Christians network and connect with each other. We hope that this community will be used as a powerful tool to hasten the coming of our Savior.

Have a blessed and wonderful day!

In His love,

The World's Last Chance Team
